MTM Celebrates Anniversary by Expanding, Adding 23 New Jobs in Laurie

LAURIE, MO, – Medical Transportation Management, Inc. (MTM) announced today that it has completed expansion of its customer service center in Laurie, Missouri near the Lake of the Ozarks in Morgan County. The \$200,000 building expansion has created workspaces for 23 new full time employees that will start on September 1st, 2010. This will bring the total MTM staff count in Laurie to 57, with an associated \$1.2 million in annual salaries.

This expansion comes just one year after the MTM customer service center in Laurie opened for business with 31 local employees. MTM decided to expand the Laurie center upon award of several new contracts, including the Missouri statewide Non-Emergency Medical Transportation (NEMT) contract.

Morgan County, in which Laurie is located, has an unemployment rate (as of May 2010) of 10.7%, which is significantly higher than the statewide average of 9.2%. It remains one of the most economically depressed regions in the state. MTM is committed not only to providing this area with jobs, but also to providing staff with much needed benefits including medical, dental, vision, 401(k) match, and short/long term disability. Further supporting the local economy, the original build-out and the recent expansion totaling \$410,000, were completed by Missouri laborers and by using materials and

products purchased from Missouri businesses.

MTM CEO, Alaina Macia said, “We are committed to a continuous investment in the people and economy of Laurie, Missouri. We could not be more pleased to be celebrating our one-year anniversary in Laurie with a new building expansion and by welcoming 23 new employees to the MTM family.”

MTM removes transportation barriers for more than 2 million people annually in 29 states and the District of Columbia. State and county governments, Medicaid and Medicare Managed Care Organizations (MCOs), and health care providers rely on MTM to meet quality and safety standards while containing costs. MTM operates six customer service centers processing some 1.6 million calls per year, scheduling 4 million trips each year. Founded in 1995, MTM is a privately held, woman-owned business enterprise.
